The Position: The City of Lake Oswego is offering an exciting opportunity for a college-level student as a temporary summer intern! Under general direction of the City Engineer this position will provide assistance to engineering staff, including both office and field work. Candidates must be able to perform in both environments. The position will support the Healthy Watersheds Program in the Engineering Department, through a variety of field investigations, surface water information management, and outreach activities. Example assignments include:

- Stream channel surveys – Collect basic information on stream channel geometry, band and bank materials, and flow conditions on streams within the City.

- Storm Drain Marker Outreach – Mark all the storm drains with stickers that educate the public about where the drain leads. Organize and equip volunteer groups and then collect the information and equipment.

- Stormwater Facility Tracking of Inventory and Inspections – Review records to document onsite stormwater facilities associated with single parcel or small partition home construction.

- Farmers Market Outreach – Promote the storm drain marker and other surface water programs at the Saturday Market in Lake Oswego. Includes helping staff with set up and take down. Requires working a Saturday in lieu of one weekday shift on approximately 4 occasions throughout the summer.

The preferred candidate must be:

- Interested in surface water management
- Able to work with members of the public in a variety of office and field settings
- Have attention to details and follow-through
- Strong written communication skills
- Able to work flexible hours, as noted.

This position will be for approximately three months, is full time (40 hours a week) and will generally work Monday through Friday from 8:00 am to 5:00 pm. Hourly rate will depend on qualifications and will be in the range of $11.00 - $13.00.

Education and Experience: To be eligible for this internship opportunity, students must be currently enrolled in an accredited university or college pursuing a degree related to environmental sciences, watershed management, ecological or biological or environmental engineering, earth sciences, or other
majors of similar direction. Preference will be given to students at the undergraduate junior standing or above.

**Application Process:** You may visit our web site at [www.ci.oswego.or.us](http://www.ci.oswego.or.us) to access the online application process. Resumes will not be accepted in lieu of a completed job application. The City application must be submitted by:

**5:00 P.M., April 15, 2016**

The City is an Equal Opportunity and Affirmative Action Employer. Minorities, women and qualified individuals with disabilities are strongly encouraged to apply. If you wish modification of the selection process in order to accommodate a disability, please make your request in writing and submit it with your required application materials.
