Fall Internships and Volunteers

Outdoor Education Fall Internships  
(2-4 credits)
Take a break from campus a few times a week to come lead elementary students on guided tours at Mount Pisgah Arboretum. Spend Sept. learning about fall ecology of the Southern Willamette Valley and how best to work with and teach kids in an outdoor setting. Then late Sept. - early Nov. lead small groups of kids on 2-hour nature walks. Must be available at least 2-weekday mornings 9am noon.

Nature Guide Volunteer
Don't need the credits or have time for an internship but like the idea of hanging out with kids outdoors for a couple hours once a week? Become a Nature Guide Volunteer with us. This is a great way to learn more about local ecology and working with kids!

Interested in an Internship or Volunteering?
