‘Green Team’ Tailgate Recycling Program Coordinator

**Position Dates:** August 13th-November 25th, 2012

**Time Requirements:** Approximately 60 hours; 2 hrs on each of 7 Saturday football games at Autzen Stadium, 45 hrs coordination and planning between August and Nov. (approx. 3 hrs/week)

**Compensation:** $11.50/hour

**Report to:** Judy Sheldon and Bob Beals

**Job description:**
University of Oregon Athletics seeks a student program coordinator for the ‘Green Team’ recycling effort at home football games for the upcoming 2012 season. The coordinator will be responsible for contracting with ASUO-recognized student groups or official Eugene/Springfield based clubs to work for 2-3 consecutive games per season as a fundraiser for their group. This will result in complete coverage of tailgate recycling crews of 30 people for the 7-game season at Autzen Stadium. The coordinator will be expected to meet the groups at the beginning of their shift to give instructions, assign tasks/coverage, and answer questions. Additionally, the coordinator will work with a representative of the Oregon Beverage Recycling Cooperative (OBRC) who will be onsite for recycling collection at games to ensure correct and direct payment to work crews in a timely manner as well as track the amount of recycling collected at each game.

**Qualifications:**
Must be a student at the University of Oregon with excellent communication and outreach skills. Must be able to engage diverse groups and clearly communicate expectations with them. Need to be comfortable in a management role and be decisive enough to work independently.

**To apply:**
Send a one page letter and resume explaining why you want this job and why you think you are capable of accomplishing its goals (include any relevant management experience) to Judy Sheldon (jsheldon@uoregon.edu) by Tuesday, May 29th at 5:00PM (PST). Brief interviews will be held on campus, or via Skype, the week of June 4th-8th.

**About the ‘Green Team’ Program:**
The goal is to increase the amount of waste materials being diverted from the landfill. The ‘Green Team’s job is to educate and engage Duck fans about the value and importance of recycling, while providing a convenient method of disposal. Two-atv/golf cart like vehicles will be at the crew’s disposal to run bags of recyclables to the OBRC collection truck that will be parked onsite each game day. The crew must be there, ready to work 4 hrs and 15 minutes before kickoff in order to hand out bags to fans as they enter the complex, and collect them as they fill up. The work crew must be a minimum 30 individuals over the age of 18; they will finish their work during the 1st quarter of the game but will NOT be able to be granted access to the game afterwards.

The staffing structure will be such that at least half of the 30-person crew must have prior experience, so that the work assignments are understood and consistently practiced. So on any weekend there will always be a veteran/experienced crew person working with a potentially new crewmember. There will be a base pay for the crew, as a whole. In addition, the work crew will earn the money from redeemable products collected, at the rate of .05 cents per can or bottle.
