Internship Position Description

Organization: Oregon Farm to School and School Garden Network

Timing: Fall term—between September 25- December 15, 2017

Projects:

1) Reviewing and organizing Oregon’s farm to school and school garden data to update the Oregon Farm to School Counts website www.oregonfarmtoschool.org. This will involve compiling and analyzing existing data (mostly in Excel) from various sources and summarizing in a master document.

2) Assisting with event planning and coordination of the Oregon Farm to School and School Garden Summit to be held January 25-26, 2018.

3) Assessing student learning as a result of participation in farm field trips and classroom lessons, based on scoring and comparing their pre/post surveys.

4) A combination of 1,2, and 3 above depending on your skills and interests.

Students must be reliable, responsive and have excellent attention to detail. An interest in food systems or K-12 education is desired. Depending on which project you assist with, you'll gain skills in event planning and program evaluation and learn a lot about Oregon’s farm to school and school garden movement.

Internships with OFSSGN require between 30-120 hours for the term, or between 3-10 hours per week. Academic credit can be arranged for most students, if desired.

To apply please send an email to megan@oregonfarmtoschool.org with the following:

1) Your areas of academic interest and any relevant skills and experience
2) Which project interests you
3) How much time you’d like to dedicate to an internship this term
4) Whether you’d like to receive credit
