

Undergraduate Individualized Study
Form Environmental Studies Program

This form must be completed before registering for an individualized study. We recommend submitting this form at least one week before registration closes.

- Steps:**
1. Speak with an advisor (in the Tykeson Scientific Discovery and Sustainability Flight Path or Clark Honors College) about your plan to take an individualized study course.
 2. Speak with the instructor who you would like to oversee your independent study and develop an agreed upon plan of study for the term. Keep in mind that 1 credit is defined as 30 hours of work.
 3. For "Course Topic" provide a title for what you will be studying. For ENVS 403, use your thesis title. This information will be used to create a course title on your transcript.
 4. Email this completed form to your faculty advisor. Request they email Sophie Bybee, ENVS Undergraduate Coordinator, at sbybee@uoregon.edu, from their uoregon.edu account with their approval.
 5. Submit this form to the ENVS Office by emailing it to Sophie Bybee at sbybee@uoregon.edu
 6. You will be notified by email when you have been cleared and may register on DuckWeb. This email will also contain the information on how your independent study will count towards to your degree requirements.
